Phone: 08-510 081 30

# International profile

At Internationella Kunskapsgymnasiet all students are provided with the opportunity to reach their full potential within an international environment. The international atmosphere is apparent when you first enter the building! Many of the teachers are native English speakers and have varied international backgrounds. Students quickly master the English language as English is spoken on a daily basis both in and outside of the class room. Many lessons are also taught through English.

## A personalised education

Kunskapsgymnasiet puts the individual student at the center of the learning process. Each student has a personal tutor who is also a subject teacher. The personal tutor guides you through the learning process in order to help you reach your academic goals and organise your studies. Resources in the form of time, facilities and your timetable are organised to support the personalised education.

## Develop your English

Students are given the opportunity to study English at a faster pace – you may take both English 5 and English 6 in year 1 and continue with English 7 and English 8 in year 2. The English 8 course prepares you for the Cambridge Certificate in Advanced English (CAE) and/or the Cambridge Certificate in Proficiency (CPE).

## Focus on foreign languages

At Internationella Kunskapsgymnasiet students may take courses in Spanish, French

and German. If you study your foreign language at the highest level (level 5) a trip with your class mates and teachers to Spain, France or Germany is organised by the school.

## International profile

In today's global society we have to be able to meet, relate to and understand other people, their living patterns and their cultures. This requires not only the ability to communicate with others, but also an openness, tolerance and knowledge towards and about the world around us.

The school offers exciting courses such as International Relations, International Finance and Management & Organisation. Whether you are interested in foreign politics or development work in third world countries, Internationella Kunskapsgymnasiet prepares you for your working life in Sweden and abroad.

## Study Programmes

- Natural Sciences Programme
- Social Sciences Programme
- Humanities Programme
